In an effort to assist the Spanish Fort Volunteer Fire Department and the City of Spanish Fort in keeping insurance rates low through its ISO rating, the Spanish Fort Water System began Hydrant Testing in the City the week of March 29, 2021. Flushing will be throughout the system and is expected to last a few weeks. During this time residents may experience low water pressure and/or discoloration. This should clear within a few hours. If not, please run faucets until the line clears. If problems persist, please contact the Spanish Fort Water System at 251-626-3067.

The Alabama Department of Transportation (ALDOT) is holding an online public involvement meeting to receive public input regarding a proposed project to modify the intersection of CR-31 (Old Highway 31) and US-31 (SR-3) in Baldwin County. The purpose of this project is to address safety concerns caused by the sharp angle of the existing intersection of US-31 and Old Highway 31. This will be done by extending Pinyon Dr. northward to US-31 and removing the existing intersection. The project information and comment form can be found online at the ALDOT website [www.ALDOTinvolved.com](http://www.ALDOTinvolved.com). The deadline to submit a public comment is April 28, 2021.
